Ken,

I just want to take the time to say thank you. I looked around for a reliable roofing solution for my company, and never had a second thought about Odessa. I needed someone whom I could depend on to deliver a leak free roof and unparalleled service. Of course, I got that, plus a business associate that has taught me a lot and provided me with a ton of referrals. I feel like I am on the receiving end of this relationship. I can only hope that you realize my gratitude. I work hard to make every one of your referrals count. I hope that my success brings you referrals in the future as well as credibility today.

Thanks again, your friend,

Michael Mitchell
